# Click “Add payment details”

The screenshot shows the OpenAI Platform settings page for billing. The browser address bar displays `platform.openai.com/settings/organization/billing/overview`. The page has a sidebar on the left with navigation links: Settings, Your profile, Organization, General, API keys, Admin keys, People, and Projects. The main content area is titled "Billing" and includes tabs for Overview, Payment methods, Billing history, Credit grants, Preferences, and Promotions. The "Overview" tab is active, showing a "Free trial" status with "Credit remaining ①" and a balance of "\$0.00". A red rectangular box highlights the "Add payment details" button, which is next to a "View usage" button. Below this, a note states: "Note: This does not reflect the status of your ChatGPT account." At the bottom, there are four cards: "Payment methods" (Add or change payment method), "Billing history" (View past and current invoices), "Preferences" (Manage billing information), and "Usage limits" (Set monthly spend limits). In the bottom-left corner, there is a "Go to Billing" button and a "Cookbook" link. In the bottom-right corner, there is a "Forum" link.
